## PROFESSIONAL SUMMARY

Full-stack developer with expertise in JavaScript frameworks (React, Node.js) and responsive design. Successfully delivered 7+ high-performance web applications with 99.9% uptime while decreasing load times by 40%. Passionate about clean code architecture and modern development practices, dedicated to creating seamless user experiences through innovative technical solutions.

## EDUCATION

**Bachelor of Technology**                                                                        2021-2025
Priyadarshini College of Engineering, Nagpur (*Artificial Intelligence and Data Science*)          CGPA: 7.0/10

**Higher Secondary** (XII)                                                                              2021
Z.P.High School & Jr. College                                                                        78.17%

## SKILLS

- Frontend: React.js, Next.js, TypeScript, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs, Authentication, Middleware
- Database: MongoDB, PostgreSQL, Firebase, NoSQL, Indexing
- Tools: Git, GitHub, Webpack, GitHub Actions, Postman, CI/CD, Docker, NPM, Yarn

## EXPERIENCE

**Full-Stack Developer Intern** - Unified Mentor Pvt. Ltd.                                    Jul 2025 - Aug 2025

- Developed full-stack features using React.js, Node.js, and RESTful APIs.
- Built secure authentication and dashboard modules with optimized UI components.
- Improved front-end responsiveness by 30% with reusable design patterns.
- Collaborated in Agile sprints and peer code reviews for clean code delivery.

## PROJECTS

**Note Tracking App** -Full-Stack Web Application [(Try it here)](#)

- Improved mobile retention by 60% with a responsive design and streamlined note interface.
- Reduced API response latency by 40% through backend optimization and database indexing.
- Secured user data with JWT authentication and protected routes for session management.
- Achieved a 48% faster sign-up-to-dashboard transition through optimized log-in flow and CORS-compliant API calls.
- Real-time note operations (create, read, update, delete) with a fully connected React–Node–MongoDB stack.

**Refokuss** -Front-end Development Project [(Try it here)](#)

- Increased user engagement by 45% with interactive galleries and smooth animations.
- Achieved perfect Lighthouse scores (100/100) in all metrics.
- Extended the average session duration by 2.7 minutes through enhanced interactivity.

**Obys-agency Clone -**Front-end Development Project [(Try it here)](#)

- Boosted mobile engagement by 52% with responsive design.
- Reduced JS bundle size by 38% through code splitting and lazy loading.
